

Mp3 Jody Bruce - The Truth About Renewable Energy

[DOWNLOAD HERE](#)

This audiobook exposes the truth about Renewable Energy 5 MP3 Songs in this album (79:17) ! Related styles: SPOKEN WORD: Audiobook, SPOKEN WORD: Comedy Details: Hello! My name is jody. I hope you enjoy my audio book. Its about time the truth about our huge energy problem comes out. You wont believe it but its true. We have the technology to make energy for free, but its being hidden from us. Its been like this for at least 100 years. I will tell you all about it with examples and web site urls to research more. I compare this amazing technology to our current forms of renewable energy, such as wind, solar, hydroelectric and biomass. Then I compare it to our current sources of polluting energy, such as coal, oil, natural gas and nuclear power. I expose the honest truth! Its a 440 billion dollar a year industry that we the consumers are paying for and getting shafted. Did you know that most ways we generate electricity are at best 40 efficient. We could generate it with magnets and get over 100 efficient, with most around 500 to 1000 efficient. We can also run cars on water with 100 miles per gallon. If you are sick of these high gasoline and energy prices, you will love my audio book. I will even show you how you can help stop this with just a phone call. I have been researching free energy for the last 15 years. You will be shocked, I promise! Take care, jody
