Industrial-Ambient-Noise 14 MP3 Songs ELECTRONIC: Ambient, ELECTRONIC: Experimental Details: REbRO create musical structures far from the most usual trends. To do this they use unconventional sonic architectures. From the precise instant of the beginning of the albums, you will witness a display of creative, sonic energy of a high degree. Synthesizers and guitars, percussion and effects, everything is aimed at a work that in some instances overwhelms the audience. REbRO shows that electronic music has not abandoned the originality that characterized it in the beginning. The albums have Ambient, Electronic, Techno, Industrial, Progressive, Bass Drum and also Space elements skillfully fused together. There are moments of a greater introspection, perhaps near to meditation, together with other instants of a simple, straightforward experimentation. The instrumentation and the sonic effects maintain a disquieting tone throughout the albums, contributing a series of indescribable sensations for the listener.
