

Mp3 Kevin Sandbloom - Earthbound

[DOWNLOAD HERE](#)

A Neo-Soul record with Bossa, Hip-Hop and Old-School Soul influences. 11 MP3 Songs URBAN/R&B: Soul, ELECTRONIC: Funk Details: Kevin Sandbloom plays his own brand of eclectically influenced R&B, Funk, Soul and Blues. He has been on soundtracks, on the radio, in recording sessions with the well known and those who should be. Listen to his recordings, the most notable being The Congregation's GOOD OLD TIME FLAVOR (Necta Music 1997), and BLUES FOR BRICKTOP (Red Llama Music 2002), his solo debut. They are a product and a document of his trouble- woes- joy and affirmations. The people in his life are the subjects of, and collaborators in his compositions. To communicate is the goal, to be inspired, at all costs. Another year has come upon us and with it, another recording has been laid down. "Earthbound", where else is there to go? Dig this new thing. It's not what you might expect, but now, what's the point of treading the same ground?
