Oriental music written for Western ears. Traditional Chinese Japanese instruments blended with keyboards for use with Tai Chi or to energize your environment (Feng Shui). 12 MP3 Songs NEW AGE: Healing, WORLD: Asian Details: BLACK DRAGON is the first in a series of three CD's for Feng Shui, Tai Chi, acupuncture and massage written produced by MARILYNN SEITS. (The other two CD's are DRAGON PHOENIX SILK ROAD). BLACK DRAGON: Music for Tai Chi Feng Shui The ancient Confucian pentatonic scale of five notes... the five elements of Chinese Feng Shui: fire, wood, metal, water and earth... BLACK DRAGON uses digital samples from Oriental and Asian instruments and it blends keyboards with exotic Oriental scales and modes (and some Oriental percussion) to create a mysterious, mystical tapestry of music. This music is written for Western ears and is a perfect accompaniment for Oriental movement practices such as Tai Chi and Qigong as the meter is random and does not interfere with the natural rhythm of a Tai Chi or Yoga workout. For Feng Shui, BLACK DRAGON has a lot more yang energy (strong, masculine) and adds more intensity and activity to your surroundings. ----- These brand new CD's come to you directly from CDBABY through me, Marilyn Seits, the composer and CMR Moongate Records, the record label. They are the latest reissue version. Many CD's on the internet market are old versions and have changed hands many times. By buying on this web page, you are helping me to pay for the professional manufacturing of the CD's so that I can continue to produce more music. I would be happy to autograph the CD's if you ask when you make the purchase. Remember that the shrink wrap has to be removed in order to autograph the cover. Thank you. Marilyn Seits
