They've been compared to Little Feat, The Neville Brothers, The Radiators, The Allman Brothers, The Band, ZZ Top, and countless other breeders of American Music. On any given night they rip through Blues, Memphis Soul, rockin' Zydeco, Santana-esque Latin rock, Outlaw Country, NYC style funk, and a dozen other styles. A band born from decades of dues in the hands of musicians that play/write from the heart. Sure, they pepper their original shows with a healthy shake of down-home Roots, but this band doesn't just cross the line between styles, they soak it in tequila and TORCH IT! One cool April night, Los Blancos was to play a very special show for Good King Dave. Problem is, we had a problem. A BIG problem! Colin had completely lost his voice! A show before our king, and the master of the disaster had no pipes? Nunca subestimar la energa de Los Blancos! The show MUST go on! Mark Nanni and Steven T. had no choice but to step up and fill the void with some Los Blancos tunes you may not have heard anywhere else before. The legend of the Laryngitis Session was born!
