Do you wish you had a clue about using media on the Internet to create that traffic? If you could generate an extra 400 sales with your own products using one simple strategy, how many times would you do it? I'm willing to bet that you'd do it over and over and OVER again! The Internet is changing and you now have the opportunity to leverage those changes for massive traffic! It's easy!| Dear Friend, A revolution is happening right now, the very second that you are reading this web page. It's called the media revolution and it's taking the Internet by storm in a massive way. Nothing like this has happened in Internet history! Media such as audio, video and a combination of the two have virtually exploded online and created a multimedia rich surfing experience for everyone. After all, we all check out sites that have video on them. Most of us surf YouTube for entertainment or education and some of us check news sites for video stories as well as our favorite TV network websites for streaming episodes of our favorite shows. The point here is that media is taking over in a major way and if you want to use that to your advantage you have to get on board fast! It is like the gold Rush all over again, will you miss this one, or join me dominating it? But before we get into that, you need to know that... Media Marketing On The Internet Is Incredibly Deep... There's no doubt that you, yourself have been exposed to media on the Internet in a ton of different ways. Above we mentioned some of the things like newscasts as well as TV programming which can all be watched online. But there are tons of other forms of media that are literally exploding everywhere on the Internet, even as we speak. Think about it... Podcasts, Videocasts, Audio Buttons On Websites, Audio & Video E-mail, Video Blogs, Video Reviews On Cnet and Amazon, etc. The whole reason I listed the media outlets above was to open your eyes to the explosive growth of media on the Internet. This isn't just a compliment to the Internet, Media has literally taken over and become the main component of the online world. Smart people are taking advantage of this growth and many are making incredible fortunes doing it. Wouldn't

you like to jump on board too? I know what you're thinking... "How Can Media Make Me Any Money?"

That's actually a great question that I'll be happy to address that for you. You see, media is part of every successful website on the Internet. Sites like YouTube allow people just like you and I to submit videos to their site. The best part is that you can include links back to your site which result in people clicking that link and visiting your website. Many other sites such as Amazon Reviews, MySpace, Blogger all allow you to post videos with links back to your site as well. There are a ton of sites you can leverage to create traffic to your websites. But the main question that you're probably asking yourself is "How can I create media that gets people interested enough to watch and then visit my website, and how can I easily create video information products that people will pay me for?". Good question. In the past, you've had to be very technologically savvy in order to be able to create, edit and post videos online. If you don't know what you're doing you may never even complete the project you start or it may come out looking horrible. But there is good news! You can learn how to create and profit from media in our newest release... The Making Money With Media Video Course! Leverage Media For Massive Traffic & Product Creation Profits!
