A cd of pure energy, this cds ventures all the way from sublime to operation ivy, making all the stops in between,Orlando Florida's Finest.... This is the 2nd official release on the band Pepper's record label, LAW Records. Mahalo For Listening 14 MP3 Songs ROCK: Ska, ROCK: Punk Details: The Supervillains have been brewing an explosive cocktail of feel good grooves that blend Reggae, Punk, and Funk in a melting pot that has been breaking boundaries for almost a decade. With that much time invested, their fan base grows like a weed and in turn, the 'Villains stir their audiences into a frenzy that no other mainstream or underground act can hold a candle to. The results of these factors are in the band's 4th studio release, Grow Yer Own. The album volleys splendidly throughout...going back and fourth from Operation Ivy speed punk to Sublime licked reggae, and (since the band comes from deep within the Florida Swamplands) at times Dom (drums) Skart's (guitar) vocals will emphasize a catchy sing-along "Sweet Home Alabama" type chorus all while keepin' a groove as deep as Funkadelic. Recently, the band has teamed up wtih Pepper, whose own Law Records will officially release "Grow Yer Own" on 4/20/2006 in support of a National tour that the two bands are about to embark on.
