Not only do the new MOTIF ES Music Production Synthesizers feature the largest wave ROM of any workstation keyboard available (175 MB in 16-bit linear format), but that Extensive Sonic library is at the heart of the most expressive, most musical synthesis system on the planet, bar none. The MOTIF ES delivers an extraordinary sonic depth and musical response. The range of sounds it produces is stunning from the Emulative Sounds of acoustic piano and orchestra to the Extreme Synthesis of cutting-edge hip-hop and electronica. You only have to hear the ES once to know this is the best sounding, most Evolved Synthesizer Yamaha has ever made. Some of your favorite producers such as Lil Jon, Scott Storch, The Runners, and many more use these very drums kits that are exclusive to the Motif sound modules. These sounds were recorded and designed by professional engineers using Pro Tools for the best sample quality available. These samples have been processed with Waves processing tools and SSL compressors for more impact and presence in your musical creations. Many drum libraries tend to have overused fx, have digital distortion and lack clarity as well as the natural sounds that some of our favorite producers have come to rely on to make hit after hit. Our samples are carefully picked, recorded, and fully analyzed to ensure that they are clear of any faults and have more live sounding feel which is credited to the drum sets, sound modules, and samplers which are widely used by award winning producers. You will notice the difference once you apply these sounds to your musical works and you will not regret it. This package includes 33 kits with a total of 2,310 Samples!!!
