MPAC MUSIC album (The Takeover) is conscious hip hop. It speaks of issues existing in the Muslim communities and communities at large. The music is thought provoking, inspirational, and intense. 14 MP3 Songs HIP-HOP/RAP: Spiritual Rap, SPOKEN WORD: Inspirational Details: M.P.A.C. Music represents change. It symbolizes a transition in history from conventional methods of expression, to more powerful identity forming methods of self awareness. Music has the ability to build or destroy the minds, morals, and ethical values of its listeners. Today's youth as others of the past are greatly drawn toward this form of expression. Although it often guides listeners to the positive, its reputation in mainstream society is one of filth, demoralization, and violence. Though many constructive songs and raps have breached this seemingly impenetrable empire, it is needless to say, the bad views have outweighed the good. MPAC music gears itself to releasing rap and other forms of music that are positive and educational, while being presented as powerful and attractive to today's youth communities. Being Muslim does not imply being out of touch with one's surroundings. It does however encompass presenting oneself with an art for of morality and spirituality.
