The solo rock opera by synth wizard, Ffej. This diverse collection of songs, style ranging from techno pop to noise punk to experimental, propels the listener through a gripping narrative about a young man finding his calling in a not so distant future. 15 MP3 Songs ELECTRONIC: Pop Crossover, CLASSICAL: Rock Opera Details: Ffej is an analog synthesist, songwriter and sound artist on the run from normality. His experimental songs and compositions defy description as does his multifaceted musical life. This longtime resident of Seattle, WA has been performing since 1992. As well as playing his own material solo, he has participated in a number of group projects including Mutant Data Orchestra, Chaosmosis and now defunct bands like Little LuAnn and Euphorbia. He has been a key member of the Sonicabal, a Seattle based collective of experimental musicians, and host of Seattle's online creative music calendar, Cognitive Dissidents.
