Every beatmaker/producer knows that the best flavorfull hard hitting drums are the ones sampled from vinyl records. Since vinyl mastering is different from CD mastering, the sound is different. When you master a CD you put a limiter on top of everything to make sure that your CD is the loudest CD out there. When you master for vinyl there is no 'Ultra-Maximizer' cos if there was, the needle would skip and the SSSSS's would sound like crap! So actually a sample from vinyl would be less processed compared to the same sample from a CD. This way you can EQ and compress the samples by yourself and customize your sound! Sampling from vinyl doesnt always mean dirty drums. Cos you can sample from a new vinyl with no crackle. Its the frequency response that everybody is looking for. Hip Hop Workshop presents Vinyl Drums II Drums sampled from vinyl records! This drum compilation is made by a beatmaker/producer for other beatmakers!!! I am not just an ebay seller. I've used these drums and made hard hitting beats with em! This compilation contains: 250 Vinyl Bass Drums 200 Vinyl Snare Drums 120 Vinyl Closed HiHats 025 Vinyl Open Hats _____ 595 Vinyl Drum Sounds!!!

Download the preview of Vinyl Drums II, load them on your favorit sampler and you'll find your self hooked! Sample them on your 12 bit Ensoniq EPS, Akai MPC60 or E-Mu SP1200 and make them sound phatter and dirtier!!! A tip for young beatmakers: There are toy beatmakers out there that say they have 10,000 and 10,000 snares... In reality, established producers only use about 10 to 50 BDs, 10-50 SNs and so on... and they just recycle them and change their library maybe every other season or on every other project they be working on. I've seen this in studios... Beatmakers using only 10 BDs and 13 SNs and maybe 10HHs for a whole album... They just EQ them and compress them differently on each track... With this little indusrty secret this collection will last you for many many projects/records. Just copy-Paste into another folder the drums you like and use most. Make other smaller drum kits out of these drums. By customizing this drum collection you will get familiar with the big amount of drums we offer. We advise you to use the same kits you've created over and over for a period of time. This way you will get familiar with the enormous number of drums and you will have your own signature on the beats you make. Cos thats the key! Use the same sounds through a period of time and your style will be noticed in your hood,

your city or the network youre about to build!!! Import them on your MV8000, MPC1000, MPC2500, MPC4000, HALion (VSTi) or any other hardware or software sampler and you have crystal clear drums along with the thickness and crispiness of these drums!!! All are guaranteed to rock you. So what are you waiting for? A pack of cigarettes cost more than 5 bucks!!! The "Vinyl Drums II" is only \$4.99! BUY NOW AND GET INSTANT DOWNLOAD LINK !!! All drum sounds are in 44.1Khz 16bit .wav format and are compatible with mostly any system. Buyer will receive a link in email RIGHT AFTER payment. Payments made by paypal only.
