Wanna get some industry standard drum sounds? Are you looking for drum sounds that you hear in your favorite producer's records? Wanna make a remix and catch the listener's attention? Then I know what you're looking for and you should know that you've come to the right place! Those who happen to have some experience in the music business must've heard about artists or groups, walking in the studio, and asking the engineer if the drums can sound like RZA or Kanye or Premier or Just Blaze or Timbaland or Dr Dre... The engineer knows that there ain't no way he can do that 'cos simply: the drums are whack!!! So, he pulls out a CD or looks for the folder in the computer and simply suggests to change the sounds with some of XXX producer's sounds... 99.9 of the cases the engineer replaces the sounds with the ones he got and 99.9 of the cases he doesn't get any credit for it. The thing is, how did he have all the hot sounds that the artist didn't have? Every engineer reading these lines knows that if an engineer wants to jack some drums from a producer it's easy... Nuff said... The Hip Hop Workshop is proud to present: "Dr Dre Chronic Drums" Drum samples that match the beat production style of Dr Dre!!! This drum compilation is made by a beatmaker/engineer/producer for other beatmakers!!! This compilation contains: 210 Chronic Bass Drums 190 Chronic Snare Drums 100 Chronic HiHats 35 Chronic Claps 23 Chronic Snaps 30 Chronic Shakers 30 Chronic Percussion 24 Chronic Tabla's 16 Chronic Rides 14 Chronic Crashes _____ 672 Chronic Drum Sounds Download the Preview of Dr Dre Chronic Drums and you'll find yourself crafting a hot rhythm pattern. There are toy beatmakers out there that say they have 10,000 and 10,000 snares... In reality, established producers only use about 10 to 50 BDs, 10-50 SNs and so on... and they just recycle them and change their library maybe every other season or on every other project they be working on. I've seen this in studios... Beatmakers using only 10 BDs and 13 SNs and maybe 10 HHs for a whole album... They just EQ them and compress them differently on each track... If you are experienced with equalization and compressing, you can tell that these drums have been through some high quality processing! Even the rides and shakers sound thick! This collection will last you for many many records. Copy-paste into another folder the drum sounds you use most and there you go: you'll have your own signature on your beats. 'Cos that's the key! Use the same

sounds through a period of time and your style will be noticed in your hood, your city or the network you're about to build!!! Sample them on your Akai MPC3000 and match the Dr Dre style of percussion! Import them on your MV8000/MV8800, Phantom, MPC1000, MPC2500, MPC4000, HALion (VSTi) or any other hardware or software sampler and you have crystal clear drums along with the thickness and crispiness of these drums!!! All are guaranteed to rock you. What are you waiting for? A pack of cigarettes costs more than 10 bucks! All drum sounds are in 44.1Khz 16bit wav format and are compatible with any system. Check out our other items! We got great drums at great prices!
