Elivia Melodey and Gaye Unverferth are the core group of the Crystal Vibrations. They first came together in 1999 at Harmony Grove Spiritualist Association in Southern California. With no formal musical training, they say that they are foremost, sound healers and musicians guided by a higher souce. The heavenly music, which flows through them, is surely inspired by Celestial realms. These two gifted women have a mission for world healing through their unique new musical form. This new independent group tours throughout the country,

performing and giving sound healing workshops on their growing collection of quartz crystal singing bowls and many other musical instruments. They are one of the very few, singing crystal bowl ensembles in the world. Crystal Vibrations Music 888 712-3833 Elivia - CrystalVibrationsMusic.com Wind and Wire, Bill Binkelman "The seemingly endless reverberations and sustain send chills down my spine. The spiritual sound of the chimes, sometimes barely struck and at other times hit more forcefully, mixes with the bowls to create a mystical listening experience. In addition, the improvisational flow of each of the five tracks actually heightens the impact of the music somehow, as if adding a deeper connection between performer and listener." Planet Lightworker "The heightened state of awareness I experienced after only a few moments of listening to Elivia was as special as any experience I've ever had while cradled in the arms of a talented musician. I've listened to many recordings of this genre, but this by far is the best Crystal Bowl healing I've experienced to date." Share Guide "Beginning with a chakra meditation, these complex, transcendent songs are the perfect background for healing therapies, meditation and stress release." Dallas -Fort Worth Star Telegram "Journey to Wholeness may be just that. A haunting set of melodies, the surreal music invokes a meditative state..." The Light Connection "Enchanting and relaxing, this meditative music transports you to faraway realms and opens you to new worlds of connection..."
