Details: We are located in Cleveland, Ohio, home of rock and roll. We have a love for Nature and we specialize in recording and publishing Nature Sounds and Environmental Music. We only record pure sounds of Nature and we do not add other music or messages to our CD'S. We have published over 150 unique Nature Soundscapes and we also produce custom CD'S for customers who want something unique and different. Atmosphere sounds can be very relaxing and can induce sleep, relieve stress, decrease anxiety, and can be enjoyed for listening pleasure. Nature Sounds are great for massage centers, spas, medical clinics, retail stores, long term care facilities, theater productions, sound effects, outdoor events and picnics, maternal centers, hospitals, and mental health centers. Hypnotherapists also use them for voice over recordings. Our most popular recordings are the Thunderstorm and Rain CD'S. Our next most popular is this Fireplace CD. Dr. Ruth Ann Goode, PhD is the artist and producer of the nature sounds and she is also an LISW {Licensed Independent Social Worker} in the state of Ohio. People who are interested in should consider this download.
