The 15 songs on this CD expertly craft and weave a varied range of breezy trop rock musical styling's, while also treating the listener to emotional lyrics that flow from the heart-felt to the comical. 15 MP3 Songs ROCK: Trop Rock, ROCK: Soft Rock Details: PROFESIONAL REVIEWS OF BEACHWRECKED The 15 songs on "Beachwrecked" are filled with a varied range of musical stylings while also treating the listener to lyrics that flow from the heart-felt to the comical. I think that Jeff and the boys have a big hit here and I'm quite impressed with it. "Beachwrecked" will definitely be one of the must-have Trop Rock albums of 2008." ----- A1A's new CD "Beachwrecked" is another collection of feel good breezy tunes. Their sound and lyrics makes me want to hit the beach or go for a sail! More steel drums in the mix this time around was a pleasant surprise. Their best trop rockin' CD yet! DK The DJ Dennis King Island Time Radio Show WBWC 88.3 FM wbwc.com

----- Since A1A's first original CD,"Ship Happens!" was inspired by the Atlanta Parrothead Cruise, I knew I'd be biased and find it hard to top. Their new release "Beachwrecked" proved me wrong! It's a terrific follow-up and really explores the idea that an album of great songs can take you on a vacation without even leaving the house. The catchy, upbeat and often clever songs are the perfect soundtrack to an island escape." -Brent Jones Atlanta Parrot Head Club

Director of the Parrothead Cruise ----- A1A follows up their original CD "Ship Happens" in style with their new CD "Beachwrecked". This is one of those CD's that puts you in an easy chair on the beach with a cold drink in your hand, and turns rush hour traffic into a summer drive down the overseas highway. The writing is strong, meaningful, sometimes comical and all classic A1A. It's proof that "The Original and Official Jimmy Buffett Tribute Show" is much more than just a cover band, they're true independent singer/songwriters. There's not a bad track on the whole CD, but my favorites are "Summers Gone", "Lovers Sail", and "Rain Day in Belize". The track "I'd Love to Play In Your Restaurant" shows the humorous side of the life of a band on the road (love it, love it, love it!), and Parrot Heads will be humming "Dining at Jimmy's Buffet" up and down Duval Street this November.

"Beachwrecked" is a great summer time CD, and with the release scheduled for May, it's just in time!"
