Alternative hip-hop blending interstellar rhymes with live instrumentation. 18 MP3 Songs HIP HOP/RAP: Alternative Hip Hop, HIP HOP/RAP: Hip Hop Details: The year was 2000. The Wackacons had invaded the Emerald City. Parties grew listless and nightclubs suffered greatly under the Wackacons' ever-growing influence. Repetitive loop manufacturers, lackluster DJs and angst-filled metal pushers aligned with the Wackacons and quickly flourished in our once-great city. It was later that year when fate brought five independently minded Autobeat technicians together. Instantly, their positronic brainpaths fused. Within weeks, laid-back progressive hiphop beats were mixed with brutally brain-teasing rhymes. It is the primary objective of Optimus Rhyme to rid the world of Wackacon oppressors. Optimus Rhyme blends live beats with interstellar rhymes creating a sound that can most closely be compared to the music of Deltron 3030 and Kool Keith. MCs Wheelie Cyberman and Broken English trade off rhymes which weave personal experiences into the fictitious lives and adventures of the AutoBeat robots. The lyrical and vocal skills of these master storytellers combine with Optimus Rhyme's live instrumentation (featuring guitar, bass, drums and a taste of turntables) to transport the listener to very different world, one which you will not want to leave.
