Let me ask you - would you be interested in an online money-making system that: Is easy to follow, even if you're new to creating websites. Can bring in money very quickly. Requires low start up costs. And is proven. Well, what I'm going to reveal is the exact step-by-step system I use for quickly and easily getting buckets of free traffic from the search engines, and turning that traffic into serious AdSense commissions, often within just 48 hours... AdSense Cash The Quick & Easy Way I've seen and tested many different tactics for making money with AdSense. However, many of these tactics involve buying advertising and then sending your visitors to pages with AdSense on them. And then hoping that any clicks you get make you more than the cost of your advertising. This is a tough way to make money. A much more profitable way is to get the visitors for free through the search engines. However, here's the problem: Popular keyword searches like "best mortgage" are massively competitive. Unless you're very experienced, it's not worth trying to get traffic from such searches. So what you want to do is to go after niche keywords. Why? Because these niche keywords have little competition which makes it easy to get your website high in the search engine results for those searches. But - often these niche keywords don't get much traffic. So here's what you need to do: You need to target a LOT of niche keywords. I'm talking hundreds, even thousands at a time. However, to do this by hand would be massively time consuming. So here's how you can automate the process: Now, you may have already heard of Traffic Equalizer. It's a powerful piece of software that can quickly create websites that get lots of search engine traffic from niche keywords. The problem is - Traffic Equalizer is not the easiest piece of software to use effectively. Personally, it took me several months before I started having any success with it. However, I'm going to reveal the exact Traffic Equalizer secrets I use so you'll have an instant shortcut to success... These powerful yet very easy-to-follow Traffic Equalizer tactics come in the form of eleven brand new videos you

view directly at your computer. I've bundled these powerful videos into a product called Instant AdSense Cash: These eleven videos come to a total playing time of 137 minutes. Here's a quick run down of exactly what you get: *Video One (8 Minutes) In this video I'll talk you through how to choose the right domains for your sites and how to get them at surprisingly low prices. *Video Two (13 Minutes) Here I'll talk you through how to choose the best web host for your sites. *Video Three (4 Minutes) In this video I'll show you how to get your website live on the net within minutes. *Video Four (13 Minutes) Here I'll talk you through how to quickly and easily build huge targeted keyword lists. *Video Five (7 Minutes) In this video I'll talk you through the vital yet often misunderstood step of setting up your Traffic Equalizer website templates. *Video Six (9 Minutes) Here I'll talk you through how to easily configure popups, ads and other options for your web pages. *Video Seven (6 Minutes) In this video I'll show you how by using Traffic Equalizer you can build a brand new web site in less than ten minutes! *Video Eight (13 Minutes) Here I'll talk you through some final website tweaks you'll want to make just before your web pages go live. *Video Nine (17 Minutes) In this video I'll talk you through what to consider when putting together the front page of your website. *Video Ten (21 Minutes) Here I'll talk you through the exact step by step system I use to get a brand new traffic-pulling site online within twenty minutes. *Video Eleven (26 Minutes) In this video I'll talk you through how you can get piles of high-quality free search engine traffic the easy way. **For PC's Only - Not For Mac** I must tell you that this eBook only works (to my knowledge) on PC's. If your computer is running Microsoft Windows, you won't have any trouble at all viewing this eBook successfully. However, if you're on a Mac you'll more than likely have trouble viewing it. A Great Product + Resale Rights = BIG Profits For YOU I'm sure you know there's a ton of eBook resale rights around these days. BUT - if you really want to make money selling an eBook you have rights to, you need: *A very high quality product. *An effective sales letter. *A professionally designed website with great looking graphics. And just by having a copy of this product, you can sell it or present it pretty much any way you choose. You can even turn it into a physical product by putting it onto a data CD or a DVD. This would make it a good way to sell on eBay. It's totally up to you! If you're interested in the resale rights and selling this product yourself, I'm sure you realize that the sooner you get a copy, the more you will profit. The longer you wait, the more your competition will pick off your customers. Order Now for Only \$1.99 Money Back Guarantee if you are not completely satisfied. To your success, Timm Miller
