The acquisition of this music is first somewhat more expensive than the purchase of normal CD. However one acquires here also at the same time the

rights for the commercially public employment of this music, without having to make additional payments to the GEMA, GVL or other exploitation corporations. Because with each public specified music, unmarried or as an integral component of applications, in principle regular GEMA fees are due. - Field representatives of the GEMA can control undeclared -. With the purchase of a gemafreien clay/ tone carrier and/or piece of music, one pays a fixed price, which already contains a certain user license inclusive GEMA exemption. The Kostenkalkulation so clearer and the music is in the long term seen substantially more inexpensive.
