To quickly track your advertising clicks. Sell impression space. Sell clicks on your site from banners, links, and more! Do all of this without having to pay a programmer or find an expensive solution. Your profits will soar once you tap in to all of the ad revenue you've been leaving on the table! This software enables you to track your affiliate campaigns, so you know exactly which banners and ads are getting clicks and you can also track to see which placements are working best for you. Beyond that you can even use it rotate banners and test click-thru's so that you will always know which ad is performing best. Say for example if you have 2 banners for the same affiliate product of the same size you can place those banners in the same spot and this software will randomly and evenly display that advertisement, so over the course of a day or week or month you can look at the stats and see which banner is getting better click- thru's. This way you will know to always use that banner instead. Did I mention that you can use this software over unlimited websites with no extra cost? OK, the software sounds amazing, but how hard is it to use? Don't worry, you only need a standard hosting account and the ability to upload files to your server. If you don't know how it's no problem, because I'll show you how to do this and so much more in this easy to follow video series!
