Sounds of Poison Dart Frogs of Central and South America 16 MP3 Songs NEW AGE: Environmental, EASY LISTENING: Mood Music Details: "Sounds of Poison Dart Frogs of Central and South America" Audio CD 74 Minutes \$14.95 Welcome to the exciting world of Poison Dart frogs! With well over 150 species and color morph patterns, there is a certainty of finding a frog that appeals to everyone. This CD is dedicated to the small but growing community of hobbyists in the United States and Europe that keep, breed, and study these colorful frogs. Enjoy! The calls included on this CD represent fifteen different species of frog ranging from common to uncommon in captivity today. All tracks on this CD incorporate a "rain and dripping water white noise" into the background which gives the recording more depth. For those who may want to just relax and listen it inspires feelings of the rainforest and being surrounded by quantities of calling frogs. These are not tracks that have merely been dubbed and looped... some of these tracks have taken countless hours to record. It is apparent upon listening to this recording that these frogs have a tremendous range of communication... they can be heard conveying emotions ranging from a territorial "Stay away from my leaf!" to a sultry "Hey, baby...". All frogs on this CD were recorded in captivity; under no circumstance were any frogs harmed during the recording process. Tracks are as follows: 1) P. Aurotaenia 2) D. Intermedius 3) D. Pumilio "Man Creek" 4) E. Silverstonei 5) D. Lamasi 6) D. Castaneoticus 7) D. Pumilio "Bastimentos" 8) P. Terribilis 9) A. Zaparo 10) D. Imitator 11) D. Amazonicus 12) D. Pumilio "Chiriqui River" 13) E. Trivittatus 14) D. Ventrimaculatus 15) D. Leucomelas Track #16 is a bonus track that includes all 15 species !!! Searches:Dart Frog calls
