CARIBBEAN CLUB SOUNDS is a collection of musical elements found throughout the Caribbean region. The goal was to capture the embodiment of nearly every musical style found in that region. CARIBBEAN CLUB SOUNDS offers a large array of Caribbean sounds and styles that you can hear in the clubs like Dancehall, Reggae, Reggaeton, Calypso, Socca and Ska. Including construction kits, vocals, effects and drum loops that cover the styles mentioned above, this collection is an excellent tool for your arsenal. The construction kits are provided with the BPM information and presented with a full mix and their component parts. You'll get a total of 315 files containing basslines, synthlines, guitar loops, dub effects and vocals, organ and piano loops, drum loops, melodies... These sounds can be used together to create complete tracks or they can be used individually to serve as a foundation. Alternatively, you can use these flavours to embellish your existing tracks.
