Among the fondest and most memorable moments of childhood are the discoveries of songbirds nesting in the backyard. The distinctive, mud-lined nests of robins and their beautiful blue eggs captivate people of all ages. Likewise, the nesting activities of house wrens, cardinals, chickadees, and other common birds can stimulate a lifelong interest in nature. The Birding For Everyone package provides you with the information you need to start a fascinating new hobby that will provide hours of joy for you and your family. Common Birds of North America is the perfect beginners guide to identifying the most common birds. With this illustrated guide you will be able to readily identify everyday birds. The birds depicted in this book are valuable reminders. We need them; we need the same clean and wholesome environment upon which they rely; we must work to ensure their continued well-being (and that of other migratory and non-hunted species) so that our own future can be assured. You will find this guide to be your first step in appreciating the hobby of birding. As you learn to enjoy the beauty of birdlife around your home, you may wish to improve the "habitat" in your yard so that more birds will visit your property. It doesn't matter where you live - in an apartment, townhouse or single family dwelling, in the city, suburbs or country. Just stand still and you'll hear them: wild birds. It is hard to imagine life without them. And you can watch them just about everywhere. The most convenient place to start is right in your own yard. Habitats For Birds tells you how to create an inviting place for birds to visit and enjoy.
