You can download a free demo. By incorporating landscape based on actual New Zealand electronic map data with specially developed Nature Series sets (animated waterfalls, river splines, textures, cliff splines, rail ledge splines, rock splines), Murchison 2 takes Trainz to a new level of realism. The result is a photorealistic colonial layout, set in the steam/diesel transition era, that users can submerge themselves in for a complete interactive rail experience. Whether a steam-era NG enthusiast, or solely interested in SG steam or diesel operation, the 440 board Murchison 2 layout contains a huge variety of interactive and inter-related industries for operational pleasure that will keep the train enthusiast immersed for 100's of hours of interactive operation.
