

# Mini Kit \_ Diabetes

[DOWNLOAD HERE](#)

EXPERIMENTAL PROTOTYPE - This file is in testing, no claims of treating Diabetes is made at this time. This file is speculated to be possibly able to affect mind states and related which may cause positive changes leading to regression of diabetes style symptoms, but this is ONLY conjecture at this time. It is recommended for the experimenter to use all of the Diabetes files, Parts 1 to 4 ----- From: modvoice1@ Subject: [the\_sound\_of\_stars] DIABETES KIT To: the\_sound\_of\_stars@yahogroups.com Received: Friday, January 16, 2009, 7:58 PM This stimulated my pancreas immediately, with a feeling of warmth and movement. I also had sensations in the left occiput. After several minutes, the area of stimulation went to the large intestines, and to the liver. I also experienced sensations in the urethra, which I intuit may relate to the bladder &/or kidneys. very powerful and energizing. ALSO, there was a great sense of relaxing of foot neuropathy pain and muscular tension unwinding like crazy. MANY, MANY THANKS!!!!!! Re the Shekinah set, I have not been able to coordinate a simultaneous running in tandem with the "Ground" frequency as yet. I may have to transfer the ground freq. to my other laptop and run them that way. (Or get a crash course in sound tech!) I enjoyed them individually and hope to get the full experience soon! More later.....Lynne ----- From: Sat Sat
