For novice blues harmonica players who want EVERYTHING that beginner can possibly need at a surprisingly reasonable cost, here's the ticket: You get the MBH Beginners Special--four beginners' videos with the tab sheets thrown in for free, all in one big zip file--PLUS the following: Raw Beginners Start Here (video) Oh Susanna (video + tab) Counting and Playing 12-bar Blues (video + tab) Blues Harmonica Playalong Sessions (jam tracks + one-hour video on how to use them) These videos are hosted by Adam Gussow. A member of the duo Satan & Adam and a noted one-man-band performer in his own right, Gussow is also the creator/webmaster of Modern Blues Harmonica and the host of "Adam Gussow's Dirty-South Blues Harp Channel" at YouTube. After working through these lessons, and with sufficient practice, you'll know how to hold the harmonica and make wah-wah and warbling sounds; you'll know how to produce clear and sonorous single notes, double stops, and chords; you'll be able to play your way through two different 12-bar blues songs plus a folksong standard; you'll have a solid chord rhythm under your belt; you'll be able to produce a bluesy bent note; you'll understand the inner logic of the all-important 12-bar blues pattern; you'll have a bunch of jam tracks to boogie along with; and you'll be filled with ideas for HOW to jam along. You'll be supercharged! These files would cost you \$48 if purchased individually, but YOU GET THEM ALL FOR ONLY \$35. Other online blues harmonica instructors charge more than \$100 for their all-inclusive beginners packages, but you can cut right to the heart of the blues harp tradition for a fraction of that cost with what I'm offering here. NOTE: For best results, please work through these lessons in the following order: 1) Raw Beginners Start Here 2) Oh Susanna 3) Floyd's Hotel 4) Shuffle Blues Rhythm 5) Counting and Playing 12-bar Blues 6) Stompin' 7) Bending the 4 Draw 8) Blues Harmonica Playalong Sessions For descriptions of the contents of these individual lessons, plus free previews, please access the individual files from "the store" at Modern Blues Harmonica.
