Automatically create Auction Ads that really hit potential bidders between the eyes without ANY programming! Auction-O-Matic is the only eBay template software that I need... it does everything for me. it generates everything I need to create great eye-catching, bid pulling auction listings and saves me so much time.. Thank You... Rick Norris - (eBay seller) Before I tell you about Auction-O-Matic and how it can quickly help you to increase your Auction Profits. Let me briefly explain how and why I developed this neat little program: A few years back when I started selling on eBay I couldnt help but wonder why some very similar auction items to the things I was listing, would always receive more bids than my own - Pushing up the winning bid price for the other guys auction! Why do some identical items end with higher winning bids? It took me ages to figure it out. I mean, I always used photos and detailed descriptions - just like everyone else after all... I spent weeks eliminating one thing at a time doing little systematic tests to compare the differences between; The length of an auction, The starting price, Not using a reserve etc., etc. Then FINALLY late one night I worked it out!... Youll be surprised to learn that it wasnt any the things I had first been thinking of at all. The Ads just look professional! Its because the ads that pull the most bids at auction are professionally formatted using HTML coding to make the advert even more eye catching than a standard listing and in some cases even use a complicated Javascript to make the advert interactive - with new windows that popped open upon request! I didnt know how to do any of this clever stuff, do you? During the evenings of the months that followed, I decided to teach myself everything I could learn about HTML and Javascript programming. So that I would be able to get ahead of the rest of the crowd, and post the best adverts possible - full of little auction secrets. My hard work eventually paid off and I put everything I had learnt into one very simple step-by-step system that automatically generates all the HTML and JavaScript required to create a great looking, bid pulling interactive auction advert. This system has now been turned into I proper auction tool I have called Auction-O-Matic! Theres no need for you to learn programming like I had to because Auction-O-Matic does all the hard work for you. In fact, because of this software theres no need for you to know anything about HTML or JavaScript at all. Auction-O-Matic produces great results but also saves you time preparing your advert for submission.

Because of the simple way everything is laid out, it only takes you a couple of minutes from start to finish. The end result is a stunning interactive auction advert - even if you're a complete beginner. Nearly everything is done automatically for you, in fact all you need to do is fill-in-the-blanks as instructed.

As far as I am aware, there is nothing else anything like Auction-O-Matic available on the Internet ,

after all that is why I originally spent months teaching myself how to program HTML and Javascript in the first place. Save yourself the time and effort of learning how to hand code HTML and let Auction-O-Matic generate all the source code for you - automatically. You'll be pleasantly surprised how much time you'll save. SO HOW MUCH DOES Auction-O-Matic COST? Well, let me be honest with you, I've discovered a great deal about selling online, and selling using Internet auctions by testing absolutely everything, including prices! I have decided to set a minimum price for Auction-O-Matic at just \$34.95 which is the price I am currently testing today. However, like I say I am currently price testing so if you want to be sure of downloading Auction-O-Matic at the minimum price I would advise you not to hang about. Many of my online friends have suggested that \$34.95 this is too low, and I should be thinking nearer \$50.00. I believe price testing is the only way to find out the best price for sure, so that's what I'm doing... GUARANTEE: I'm sure that you'll be more than happy with Auction-O-Matic, but to reassure you. I would like to make you a promise: If for any reason you believe that Auction-O-Matic is not everything that I have described, or if you are not completely and 100% satisfied with it, then simply let me know and I will refund every cent of your purchase with no questions asked. Now you have discovered Auction-O-Matic, you'll soon be able to create an unlimited number of bid pulling auction ads for any auction item you have in just minutes - without any programming and without any headaches. Nick James PS Of course one of the BIGGEST and MOST VALUABLE benefits of downloading Auction-O-Matic today is that you'll not only receive the software but you'll also receive a free license upgrade. So you can sell Auction-O-Matic yourself. This way if you manage to make just 1 sale you have made back your entire investment and downloaded a remarkable new auction software tool.
