Extensive research has shown that how well a child performs on tasks, such as learning to talk and learning to read, is thought to be closely related to the nature of the child's early interaction with his parents, the amount of responsiveness they show to the infant, and their ability to encourage him to independent exploration. This kid reading program was designed to engage young children into reading through use of rhymes, word games, pictures, videos, and sing a long music. Your child will learn the alphabet as well as how to put small words into sentences, all in this short series of videos. (FEEL FREE TO CLICK ON THE YOUTUBE.COM VIDEO ABOVE TO HEAR AND SEE A SAMPLE) Video Lessons Include: Video #1 - Introduction Video #2 - Basic Words Video #3 - Sing-A-Long Song Video #4 - Basic Words Part #2 Video #5 - The Alphabet Song Video #6 - Basic Words Part #3 Video #7 - The Word Game Just by taking 15 minutes out of your day using this visual aid and reading to your children, you will be creating a great impact on his or her life. Babies who are able to read at an early age acquire enhanced mental development. This is because the earlier a baby's brain gets nurtured the better prepared it will be for the continuous mental development that they will encounter as they grow up. For all the good things it stands to give your baby, this program is certainly worth a try because if there is one legacy worth leaving your child with, it would be the gift of intellectual advancement.
