

The Body Of Light Mantra

[DOWNLOAD HERE](#)

The Cathars were an ancient Gnostic group that called themselves the Pure Ones, after their Goddess known as the Pure One. This was their term for the Virgin Great Mother Mari. They claimed to possess a secret manuscript that had been transmitted down through the centuries. The Cathars and the Knights Templar adopted it. The Book of Mari was the foundation of the Cathar Church of Love. The existence of this lost gospel was revealed when the Catholic Church subjected the Cathars and the Templars to torture. Its contents revealed a secret skill, possessed by all humans, which is said to grant one the ability to control the forces of nature, and to transform ordinary human flesh and blood into that of an immortal body of light. The Cathars believed that the object of life on Earth was to transform the human body into an immortal vessel of light. The Book of Mari contained a song, which when sung properly, began the transformation process of the human body into a vessel of light. The Essene culture of the Middle East had a similar song which was sung as a solar liturgy. When combined with certain solar practices, these sounds led to the transformation process. There were many variations of this practice in many cultures. In Indonesia, there have been many famous spiritual masters who are believed to have vanished from the physical plane by attaining the Body of Light. In Indonesia, the process is called moksha, the meaning of which refers to the literal transformation of the body. The Body Of Light Mantra raises the overall vibration of the physical body. It also increased the amount of light that the physical body may hold. By regularly chanting the mantra, many mystics believe that at the moment of ones so called death, one would undergo the perfect death and be able to etherealize the physical body. The student would then immediately function in the Body of Light without any break in consciousness. For the power of the mantra to be effective, they believe that one would have to tread the spiritual path with sincerity, honesty, and purity of heart. There are a large number of powerful spiritual experiences associated with the use of this mantra. Most of these experiences related to the visualization of light beings, kundalini surges, and powerful movements of light within the body of the user. According to legend, memorizing the body of light mantra causes changes within the mind and body of the user. The culmination of these changes is the creation of the human body of light. Once a person becomes a light being, he or she may at times

return to earth in order to teach others. The body that they inhabit is immortal and requires neither food, water, nor air for sustenance. The body of light may at times take human form for specific purposes, but is not locked into any particular shape. Many spiritual cultures believe that this is the next step in mans higher evolution. Repeated 6,700,000 times, The Body of Light Mantra slowly transforms the human body. This is the first recording of The Body of Light Mantra ever made. It is not available in stores nor on any other site. We are happy to make it available to you.
