RE: List-building, email marketing, relationship building and all that hype that everyones talk about.

===== If you have been in this business for a while now and are not making the money you deserve or enough money to quit that job that you hate, Im here to tell you what you need to do to make it in internet marketing and live the life that you deserve! What Im about to tell you will give you the key elements to making it online, and it all starts with something you may have been hearing about for ages now - building a list! Why you must build a list! If I was to tell you one thing and one thing only about internet marketing, I would tell you the following: Build a list! And the reason is simple. Its a lot harder to get a new customer then it is to sell to an existing one: Fact! Its all about control. When you have a list built you can drive traffic at will to any site you choose that is in line with what your subscribers want, and that means that you can effectively write your own pay check. Any time you want traffic, you have it there on tap without having to pay for it or write boring articles and make endless forum posts. When you build your list you are creating an asset that is worth money. You are investing in your future. Its time to stop thinking short term and let internet marketing look after you long term. Why you need to keep in contact with your list! When you have an auto-responder loaded with messages that are going to go out to your subscribers over the next weeks, months or year you can sit back knowing that you keeping in contact with your customers while you find new people for your list. The auto-responder is the most important bit of kit that you have in this business because it enables you to GROW and EARN MORE while you nurture and develop your best asset online i.e. your list! Why you must have a sign-up page Sign up pages (also known as squeeze pages) are an absolute MUST when it comes to list building. If you are sending people directly to product sales page you are missing out on a big opportunity. This is the opportunity to make real money online and develop your internet marketing business into something that will look after you in the future. When you use a sign-up page instead of sending your customers directly to an affiliate site immediately, you can capture their information, build a relationship with them and market to them later on, regardless of whether they buy now or not. If you are currently NOT using a sign up page you are simply leaving money on the table

and putting the fruits of your hard work into the pockets the product owner. Why FREE Is Good And Why you absolutely MUST have a fREE gift to give away! When subscribers come to your page they are going to need an incentive from you to hand over their email address. Life is all about give and take and you will have a hard time getting their email address from them without something to give them in return. Not many of us can resist something for free in this life so if you have attractive offer you are one step away from getting that customer on board and building a profitable relationship with them long term. So it stands to reason that you need a) a way of building your list, and b) well thought out and prepared emails that will strengthen the bond between you and your subscribers and make you money! This is what I have prepared for you to not only save time, but embarrassment as well from sending out noobish looking emails! Introducing... ===== Mega Money Emails! You've gone through the effort of explaining everything in the emails I send out that all I have to do is keep building my list. Thanks again for creating this wonderful system as I'm sure this will help loads of marketers. Edward, Los Angeles I Thought I Was Out Of My Depth When I first saw Mega Money Emails I thought it was too good to be true. It was probably because I never really understood what list building was all about. I only thought of it as a term people used to sound like they know what they're on about. Honestly I thought I was out of my depth on this one, but you've really made it easy even for someone like me. I'm beginning to understand how this system works and how I can use the technique in my golf niche to... one step at a time though! Thanks, azmey Who Knew Emails Made Money? I'm no stranger to email marketing, I get them in my inbox every day :)... When I checked out your Mega Money Emails I was surprised at how well written they were. I can clearly see that you're not shoving products down people's throat but rather educating and providing a resource for them. I'm more than happy to have these emails in my autoresponder! Thanks again for letting me test your system!

Ryan E. Are There Any Requirements? As with most online ventures, you will need your own hosting account and Aweber auto-responder service. The fees for this are minimal if you follow our instructions you WILL make your money back several times over. Also if you don't have an Aweber account but still want to use our Emails and add them into your system, we'll go the extra mile and provide you with the emails in Word .doc format all numbered and laid out in order so you're promoting in a logical sequence. Okay, Sounds Good But How Much is Mega Money Emails Going To Cost Me? You're probably worried that Mega Money Emails will come with a heavy price tag but you have absolutely nothing to worry about. As you know, I always strive to provide extreme value in every offer that I put together and this time is no different. While this system could easily be sold as a \$97/month membership package, I'm not going to go that route. I truly believe in making sure that everyone who gets involved in online marketing is brought

to a certain skill level - that way we can all benefit from each other. Even if slapped on a \$77 price tag, there will be a good handful of seasoned marketers who will grab it without fuss because they can already see the real value in what I'm providing and know that they can make their just with the auto-responder sequence themselves. However I need to make sure that EVERYONE is able to afford this, WITHOUT attracting freebie seekers who will abuse this system. So to keep things in a happy-medium you'll be able to pick up Mega Money Emails for the incredibly cheap price of just \$47 \$17. Yes that's it! Final Price Only \$47 \$17! That's \$17 to have high quality emails written for you. \$17 to have emails automatically building a bond for you \$17 to have an email sequence that is logical and works \$17 to have a product promoted that actually sells \$17 to have the luxury of a one-click upload campaign code so you don't have to input each email into your auto-responder one-by-one \$17 to have a beautifully designed squeeze page (with a choice of templates) that's been tested and proven to suck in leads! \$17 to save yourself from experimenting and not getting any real results to show for it! \$17 to have absolute peace of mind that you don't have to go through the technical aspects all by yourself with no one to help you except the one or two who have time on the forums \$17 to enable you to earn commission as high as \$75 per sale for a single product, as well as recurring payments! \$17 to be completely future proof and a CONTINUOUSLY updated campaign, and to have emails written for you for life! Doesn't \$47 \$17 just seem silly compared to the hassle you'd have to go through? * You won't have to design a squeeze page * You won't have to put together a free gift * You won't have to spend hours writing emails * You won't have to spend days/weeks even months testing your email campaign * You won't have to hire a copy-writer to craft the emails for you * You won't have to hire a graphic designer to create your high-impact squeeze page * You won't have to put in so much effort for such a little return * And you'll definitely save yourself a LOT of frustration in the long run. Now doesn't that sound fair? Your Satisfaction Is Absolutely GUARANTEED! Let Me Protect Your Investment...
