ATTENTION: If you are promoting an affiliate URL without using Pay Per Text Marketing you are losing your hard earned leads to the affiliate program... this may be the most exciting report you'll have the chance to read this year! "Finally, You Can Promote Any Affiliate Program Online... Build An Enormous Opt-In Mailing List... And Stop Giving Away The Leads You Worked So Hard To Generate" This Explosive Marketing System will Increase your ability to follow up with your affiliate web site visitors by 100! From: Troy Pentico Sunday, 08:40 a.m. Dear Friend, Pay Per Text Marketing In just a few minutes you'll see exactly how you can use the Pay Per Text Marketing System to generate more leads and sales. All of the ground work has been done for you. The only thing you need to do is insert your own contact information and ads into the Pay Per Text Code and you're all set. It just doesn't get any easier than that! Folks, lets face it if you are not performing follow ups with the visitors to your website you are not maximizing the sales potential of your products and services. Not everyone is ready to "buy" on the first visit. But, if you capture their contact information you are giving yourself the ability to answer any further questions they may have or offer more information about the product or service that may not have clicked with them the first time. If you are not doing this or you do not have the ability to do it you are wasting valuable time and money advertising a program that will do nothing for your pocket book if you do not close the sale on their first visit! Affiliate Programs are one of the "hottest" methods of making money on the Internet and they continue to grow in popularity every day. They give you the ability to take your share of the profits in some of the fastest selling products and services on the Internet. For many years I have marketed a wide variety of affiliate programs and although I have made some nice commission from many of them there is one problem that has always bothered me and held me back from maximizing my earning potential. You see most affiliate programs do not give you a way to follow-up with the visitors to your affiliate web page. And even most of the ones that do have an information capture system built into your website don't assist you. Why? Because, they are the one capturing the information, and they are the ones that will follow-up with YOUR LEAD! You were the one that spent your time and money generating the traffic to the page and you should be the one that follows up with the customer! Enter the

Pay Per Text Marketing System... This method will make any affiliate program web site into a traffic generating, sale closing cash cow! By simply entering a small piece of HTML code into your website you will be able to capture the contact information of any visitor on any affiliate web site that you currently promote! Use Pay Per Text to offer a Free Download or Report when they signup for your newsletter or purchase the product or service on the affiliate page. The possibilities on how to use Pay Per Text are only restrained by your imagination. Need an example of how this works? One of the affiliate programs we market is called the SMass Auto-Safelist Submitter. Here is the affiliate URL that we were given when we signed up for the program: [CLICK HERE FOR THE NORMAL AFFILIATE LINK TO SMASS](#) Take a close look at this website because this is about normal for affiliate web pages. You see there is absolutely no way that I can follow-up with a person that visits this site. Even worse the affiliate program itself does not capture the information of the visitor either! There is only one possible way that you can get a return visitor from this page. And that is if they click on the Bookmark Us link. Simply put if they don't buy now you probably are not going to make a sale... EVER! So let's checkout what adding our Pay Per Text Code will do: [CLICK HERE FOR PAY PER TEXT MAXIMIZED AFFILIATE LINK TO SMASS](#) Notice the offer remains the same. But by simply entering the Pay Per Text code we are now not only offering them information on the software, we are offering them something for FREE, and have increased our ability to capture the visitors contact information by 100! You can even place a mailing list signup form right in the code so they can signup right from the pop up! Without the Pay Per Text Marketing System, There Is Absolutely No Way To Capture Your Affiliate Page Visitors Contact Information! Here are some other popular ways to use Pay Per Text... - Offer a FREE Report, Newsletter, e-Book, or eZine Subscription that either relates to or promotes your products or services. - Offer a direct link to a product that is a must have when using the product or service from the affiliate page the Pay Per Text Code is in. - Place a Book Mark this page link in the pay per text code! If the affiliate page does not offer this already you can put it in the pay per text code and they will have a way to do it! - Think of your own way! That's right beyond the must have code (to make it work) you can do just about anything you want to promote anything you want! Pay Per Text is a not a membership or a large e-Book that will take you days to read, understand and implement. Pay Per Text is an easy to follow step by step report on creating affiliate links with maximum profit potential. The Pay Per Text Code itself never changes. You simply change the affiliate URL to the one you are promoting. Change the method in which you want to present your Pay
