IP2IP Software is a feature-rich direct advertising program designed to deliver your messages instantly to MILLIONS of Windows 2000, XP, and NT desktops with the single click of a button. How would you like to advertise to millions of internet users, and not cost you one red cent? Broadcast your message to millions of internet users with this revolutionary software that has changed the way we advertise. This software will allow you send a personal message about your new product, software or website to millions of users directly to there desktop! What are some of the IP2IP Software features? IP2IP Software uses built-in Microsoft technology to deliver your message directly to desktops without the need of a web browser. IP2IP Software can be used to communicate with customers or potential customers in real-time. E-mail can take days to be delivered and received. Each successful broadcast sent indicates that your message appeared on your recipients screen. That's equivalent to a banner ad click-through! IP2IP Software comes built in with a large database of built-in IP ranges that you may send your communication to. Are the messages thatIP2IP Software sends considered to be Spam, and therefore illegal? No, the messages thatIP2IP Software sends are not considered Spam. IP2IP Software uses built in Microsoft Windows technology to display a message onto a recipient's desktop. These kind of messages are useful when trying to communicate important information to multiple users. These messages do not use e-mail addresses or e-mail servers of any kind, and are broadcast directly over the Internet. What does the advertising messages look like? See the Screenshot above This is an example of what a message looks like when it is displayed instantly on the recipients computer. This is an "actual screenshot" sample. However, every message can be customized the way you want and goes instantly to MILLIONS of prospects! How long can the advertising messages be? The message can be up to 800 characters in length, which is about 10 lines of ad space and the website URL OR phone number for them to call (like a 800 or 900 number). What are the system requirements? IP2IP Software will only work on Windows 2000, Windows NT and Windows XP/ME at this time. For performance, the general rule is the faster your internet connection and the more RAM (memory) you have, the quicker your messages will be sent out. Direct Internet connection (not from behind router) with static or dynamic IP.
