How it is Done: All that needs to be done is to download a very small program from our web site. After downloading the program , connect your phone and computer via USB data cable (That Came With Your Phone) and run the unlock program! You can Test out the program for free ! Just copy and paste this Link : [jtunlock.com/Motorola-Test/Try-Before-You-Buy.doc](http://jtunlock.com/Motorola-Test/Try-Before-You-Buy.doc) to be redirected to the download page and instructions! Please note you cannot unlock your phone using the test. The test is simply to verify that the program works on your pc and you have a compatible data cable. You must purchase an unlock credit to unlock your phone. This auction is for the unlock credit! ::This service is international::
