Advanced System Optimizer is a tool to make your PC tasking faster, easier and hassle free. Once installed on system, it helps to clean system, provide more security, prevents the system from spyware attacks and optimizes performance. It is a complete suite of all tweaks which one may need to get the ultimate PC experience. With a complete change of the look, interface and addition of many new useful features, Advanced System Optimizer v3 will help you to take care of all the PC related problems. It includes modules which not only help to get improved performance but also significant for fighting the issues that occur daily. Repair Wizard assists in tuning up the system and repairing several common problems encountered in routine work. System and Security Analyzer facilitates checking the system and security settings and suggests tips to improve the system and security levels. And, System Cleaner, responsible to take care of the possible spyware attacks. Backup Manager and System Files Backup and Restore help us to take backups of the important personal data and system files and folders. With Undelete lost data can be recovered at any point of time. The most interesting feature to find is the "One Click Care". The fundamental behind it is that in one click, few basic jobs are accomplished for the system.
