From: LEON JOHNSON Dear fellow Internet Marketer or Webmaster, Whether you like it or not, a new kind of internet is here: A "videoized" internet. Ten years ago, video was not common on the internet. But today, video is becoming a standard for websites. (Want proof? Google recently bought YouTube, the online video sharing site, for \$1.65 billion in stock!) What does this mean for YOU? You must ask yourself if you are going to keep up with the new "video" standard. Because if you do, you are going to make EASY PROFITS. You see, your customers are READY for online video right now. They've been exposed to the idea already through sites like YouTube and other video sharing sites. And they like it. All you have to do now is start using online video. It will spark your visitors' interest and make them pay more attention to you. In other words: PROFIT! But look at the flip side of that too. If you don't start using video and start catching up with the industry standards, you are going to simply THROW AWAY potential profits. Long-term profits, too. Maybe you've thought about starting to use online video for your websites, but just haven't done it yet. If that describes you, listen up. I'm about to crack the whip. :) 3 Excuses People Use For Not Taking Advantage of Online Video Excuse #1: "I just haven't gotten around to it yet." Bad excuse! If you own a business of any kind, you need to be alert about trends and changes in your industry and be ready to act upon those changes to build your business. If you don't, your business could be left in the dust. Especially with online businesses and websites. Things move much faster on the internet than they do in the "normal" business world. The internet has changed so much in the past 15 years... it's unbelievable! You must be alert to keep up with it - don't put things off. Excuse #2: "Making video for my website is too hard, expensive, and time-consuming." Not true! Nowadays, you can get a decent digital camcorder for less than \$199. And if you have Microsoft Windows XP or higher, your computer is all ready to go with free video editing software called "Windows Movie Maker." But what if you don't have the budget for a digital camcorder? (Even though it's a great investment) You can still use video to your advantage on your website! For example, you can just get a \$20 webcam and start using it to record short messages for your website or newsletter. This will build trust with your website visitors or newsletter subscribers. In fact, a lot of online marketers use this technique simply because it works (it seems

personal), it's cheap, it's easy, and it's fast! Excuse #3: "It's too hard and too technical for me to put video on my website." Just NOT so anymore... This may have been true in the past, but with new solutions like the one I'm about to share with you, you'll never be able to use this excuse again! Get "VideoWebWizarrrd" now just \$27...selling elsewhere for up to \$67 See it here: ez1-2-3.com/videosite/ Your Satisfaction is Absolutely, Positively GUARANTEED! This is my promise to you: If you're not satisfied for ANY reason, simply contact me direct to request a refund within 60 days. You'll get your money back no conditions, no questions to answer, If you're not happy with your purchase, then I don't want your money. Now I ask you is that upfront and Fair enough? Go ahead and order "VideoWebWizarrrd" while it's \$27 Thanks for reading! DigitalsByLeonco ;) P.S. Absentee resellers sell many digitals for less than I do, but quite often getting something for less. is accompanied by less of everything...connecting with them is less, so customer service is less, getting support for issues with the product file or download is much less. They don't charge much of anything for what they are trying to sell so why should they devote time to servicing what they don't profit on? I on the other hand am not an "ABSENTEE" seller, I am just a click away (Mon - Sat) for support and product issues should they ever arise. I answer all email promptly. Why? Because I genuinely want to do business you! ;-)...Test me! Use the "CONTACT SELLER" link near the top of this page just under the ebox! Use the contact form and for "Subject"= Just Testing! I will respond with a FREE (no charge) small software treat and these few words: Leonco at your service, thank YOU for testing my Tradebit form and my credibility!
