"Put Your Sorry Excuse For Digital Sales Aside And Start Bringing In The REAL Cash Like The Heavy Hitters!" New 16-Part Video Series Reveals Exactly Step-By-Step How To Set Yourself Up As An Amazon Affiliate And Start Selling Physical Products! The video series is ideal for anyone who's looking to make money on the internet but willing to put in the time and energy to learn. If you follow the steps outlined in the videos there's no reason why you can't start making real money online in a matter of a few days. Like anything in life the amount of money you make will depend solely on your time invested and your motivation to sell products. This isn't a get rich scheme this is a proven system that when followed correctly will lead to the generation of real profit and a dependable source of income. Let me reveal to you what's inside this new video series.. Video #1 - An Introduction To The Amazon Affiliate Program In video one you will learn what affiliate marketing is and how it can be a profitable venture if done correctly. You'll learn the compensation schemes of various top ranked websites as well as how to properly decide upon a product to promote. Video #2 - Get The Right Keywords! Once you've selected a product to promote video two will go into detail on selecting the best keywords to generate a steady flow of traffic to your site. By the end of the video you'll understand how to research specific keywords and phrases for any product, which will then be used to boost your rankings on the top search engines. Video #3 - Signing For As An Affiliate! Now that you have your product and your keywords you're ready to become an affiliate. Video three will take you step by step through the process of signing up for Amazon and other companies affiliate marketing programs. Video #4 - Registering A Domain Video four will walk you through the process of registering a domain name and show you some crucial tips that will save you time and money by avoiding a registrar's up-selling and promotional tactics. Video #5 - Setting Up Web Hosting Once you've registered a domain name you now need to set up a website host to store your website's data. Video five shows you how to get through this process without the headache as well as provides some great tips that will help choose a reliable host and avoid purchasing unnecessary products. Video #6 - Pointing Your Domain Name To Your Webhost In video six you take your registered domain name from video four and add it to your hosting account that you set up in video five. This can be a difficult step if

you lack guidance, but fortunately the video walks you through it in just a few easy steps that make it an accomplishable task for anyone. After you've tied your domain to your host you're ready to develop your site. Video #7 - How To Install WordPress Videos seven A and B are crucial to developing a website. What you'll learn is how to install wordpress on your site using either Fantastico or Simple Scripts depending on the hosting company you decided to go with. This video lays out this complex process in an easy to understand format that will help you avoid long phone calls with your hosting companies technical support team. Once you have this information setting up wordpress in the future will be a breeze. Video #8 - WordPress Plugins For SEO Benefits Even though your website's beginning to come together you're still not going to rank very high on the search engines. Video eight will explain several different plugins that will help make your site more search engine friendly and better your chances of coming up on the first page of the top search engines. Video #9 - Optimizing Your WordPress Blog Now that you've optimized your site you're ready to start planning its layout and design. Video nine will teach you how to change your wordpress theme and creating a professional looking site with ease. Video #10 - Grab Your Links! In video ten we start to get to the meat of affiliate marketing. Here we're going to learn how to set up the affiliate links on your website so that clients can begin viewing products and you can begin making money. Here you'll also learn which links are best suited for an affiliate page to keep it looking professional and ensure anyone who visits your page feels compelled to follow the link and purchase the product. Video #11 - Creating Your Money Post! In video 11 you'll be creating your first money post. What this means is that you'll be writing your first blog post promoting your chosen product. If done correctly the post will compel people to follow the link to your affiliate site and in turn generate a sale, which will put money in your pocket. Video #12 - Tagging And Bookmarking For TRAFFIC! In order to promote your offer you have to let people know that you're around. In video twelve you'll learn about a concept called social bookmarking, which basically is a way of interacting and telling other sites that you're here and you're offering a product. This can be tough to understand but the video does a great job of putting the process in layman's terms and shows you how to put it into action without any trouble. This is a crucial step in promoting any website as it will generate back links and help you get indexed on all the top search engines. Video #13 - Writing A Press Release For TRAFFIC! Another great promotional strategy that is a must in today's competitive market is the use of press releases. Video thirteen explains what a press release is, how it will help you, and how to go about creating one and posting it to the web for people to

see and follow to your website. Video #14 - More TRAFFIC With Web 2.0 Properties! In video fourteen you'll learn another promotional strategy which utilizes a concept called web 2.0 properties. Basically what you'll do is set up posts on various second generation websites that will increase your back links and help generate a larger traffic volume to your website. Without this kind of targeted traffic flow your website would be completely unknown to the world. Video #15 - Creating Videos For More TRAFFIC! In today's day and age you have to use everything at your disposal to attract customers to your website. In video fifteen you'll learn how to utilize the power of video to drive traffic to your site. You'll learn how to utilize software on your computer to create and edit a promotional video and then learn how to upload the video to various social media sites for the world to see. Video #16 - Extra Promotional Avenues! Video sixteen will provide you with a few more tidbits before you head down the affiliate marketing path including some more promotional avenues, as well as some more suggestions of affiliate programs that have huge payouts.
