Dear Parent or Guardian: How important is it for your student to score high on the SAT? Math can be one of the most difficult subjects for students to master, and successfully test for. With these SAT practice math videos students, can go over each subject as often as needed. They can be used as a backup to other study materials. Another feature is that they can be downloaded to portable devices. Practice makes perfect is not just a cliché; it's fact. For less than a \$1.00 per video, your student can get the help they need and be ready for test day. Also included is a bonus: Are You Ready for College. Here are some of the practice video subjects: Please watch the sample subject video. Factoring Geometry Problem Solving Percentages Word Problems Pythagorean Theorem and more.... Each subject has an average of 7 practice videos. In addition, these can become part of your student's permanent library of reference
