Isochronic Tones with Includes wind, chimes, rain and a passing thunderstorm, night noises. 3 different ambient music tracks (Length: 60 minutes, File Type: Mp3, File Size: 134 MB) The Schumann Resonance is at a frequency of about 7.83 Hz (upper theta level and lower alpha level) which is the same frequency that the earth's magnetosphere resonates at. This is why some of us experience a certain freedom, inner peace, and overall happy condition when we are out in nature away from crowds and big cities. The energy in the atmosphere seems more clear and not as congested and we are more in tune with the earth's frequency. Your body can rebuild and repair itself (balancing the nerves, removing stress etc.) when your brain tunes into this frequency.
