You Also Get Full Master Resale Rights To This Product And Website - Keep 100 of All The Profits You Make Dear Friend, Do you know that when you're starting out on an Internet business, you will come across A LOT of new challenges that are RARELY being told by most people? Step-by-step guides are a good way to start and that really cut down on your learning curves. However, Most marketing manuals teach you WHAT to do instead of showing you "How To Do" I have heard the same questions over and over again from many newbies on how to setup their online business. Things like... * How do I register a domain name? * What the heck is 'DNS' and how do I change them? * How do I register a web hosting account and get my site set up? * How do I install popups on my website? * How can I let customers automatically download my product? * How do I set up an autoresponder? * How do I process my orders? * How do I setup my order links? * How can I upload files to my webpage? You simply cannot setup a business on the Internet without knowing these and other basics steps. So, I decided that I was going to put together a series of online videos to help newbies cut their learning curve drastically and eventually get their own Internet business up and running a whole lot faster and easier. After *literally* months of hard work, I finally manage to create a series of video tutorials successfully: know you're probably still skeptical and a bit on the conservative side, but think about this - if you spend the next weeks and months trying to figure out all of the steps it takes to get things going online - you'll only be wasting months of time. That's why I want to let try out my marketing video coaching series - completely and totally risk-free! (I'll tell you about my unique guarantee in a moment.) 243 Minutes of Exclusive Video Tutorials In "Internet Marketing Basics Videos" you get a total of over four hours of exclusive coaching videos ... starting with the basics like registering a domain name, and going all the way through to tracking your Return Rate of Investment (R.O.I), branding your ebooks... and much more.
