"Who Else Wants To Discover The Secrets To Banking In Automatic Income, Generate Passive Leads & Skyrocket Your Brand... Simply From Using Facebook!" In Just A Few Minutes, You Are About To Find Out The Little Known Secrets To Turning Your Facebook Account Into A Recurring Income Generating Asset That The Gurus Don't Want You To Know About! Dear Friend, How would you like to tap into a large pool of highly targeted customers - in any niche you want - for perpetually zero cost? And if you consider yourself a multi-niche marketer, and you peddle products in various niches, how does the idea of saving yourself the trouble sound if you know where all these potential customers are gathering in one place? And if you like the idea of speeding things up, how would you like to have an unfair advantage over big companies spending hundreds of thousands of dollars on advertising... and get the same exposure for mere pennies on the dollar? The possibilities are endless, even for the anonymous marketer or a new player in the field. Because the best part is... this 'secret weapon' the gurus often don't talk about is actually readily available to you. And you probably didn't know it! "Log On To Facebook..." I'm guessing there's more than a 50-50 chance you're already signed onto Facebook. (Not yet? Oh man, where have you been??) "Fun Facts About Facebook..." * As of July 2010, there are more than 500 million users active on Facebook. That's nearly half of the world Internet population! This is an amazing exponential growth as just the year before, Facebook doubled MySpace's social network count, which stood at 100 million users. * The number of unique applications on Facebook has gone well into hundreds of thousands. Some smart authors have become millionaires from selling applications, while others leverage to build their business. * Today, the average Internet user spends 4 to 6 hours on Facebook alone! Now you know where to find your customers as that's where they likely spend most of their time. * The day Facebook introduced Facebook Ads changed everything for marketers and business people alike. Now the power to target any customer you want, and at anywhere in the world, is at your fingertips! As said, the possibilities are endless. But this begs the million dollar question: "How Do I Make Money From Facebook... Exactly?" If this is not your first time attempting to monetize from Facebook, I'm guessing you've done one or more of the following before: * You tried posting up ads using the Facebook Ads

feature... and you got back mediocre results. You experienced a gazillion impressions with very few click throughs let alone sales! * You tried creating a group or a fan page and you can count your members with your fingers, even after inviting your existing friends on Facebook (with a lot of them clicking the "ignore" button!) * And when you message the few members you had scrambled to get them to "like" your group or fan page, the response is far from being poor! * Maybe you also tried creating profiles or pages for your business in an effort to sell your merchandises or digital products. And you tried to get the word out by tagging your FB friends to notes, photos, videos, and whatever else you can tag them to. Only to be labeled a spammer! And thus your popularity dropped before the night. Can you relate to any of the above mention statement? Look, I believe in a few fundamentals to success. For one, if you do mediocre work you should expect to get mediocre results in return. Conversely, if you take specific steps, you will get more specific results that can deliver a deep impact to your overall bottom-line. This is not just applicable to using Facebook to propel your current business venture. It's about how you do anything and thus how you do everything. Posting up ads blindly and simply setting up a group or fan page with no specific goals is not going to cut it. "Introducing FB Profit Secrets..."
