(Of course, depending on your present level of skills and knowledge) What I've seen in general is that most newbies have no idea on how to do these technical stuff. I've seen a lot of similar help requests on many marketing forums, every single day. Even with the help of those guys, they can only tell you how to do it on writing but you've still got to figure out how to do what you've been told! Why spend the next weeks and months trying to figure out all of the steps it takes to get things going online -- when you can watch someone show you exactly how to take action and get your CGI & PHP scripts installed and running today? With these videos, you'll be able to watch them directly from the computer screen itself! Tags: teach, mrr,
