"New SEO Tool Makes It Super Easy To Capture Top Search Rankings In Potentially Thousands Of Niche Markets... Forget Lifting A Finger Or Paying A Dime To Get Fresh, Relevant Content!" Effortlessly Generate An Ever-Growing Stockpile of Keyword Rich Content To Capture Top Rankings And Get Practically Any Web Page You Want Visited By The Major Search Engines In Mere Days! Dear Friend, If you've spent any time online, then you've probably heard of blogs - the most potent and lucrative search engine marketing strategy working today. But, did you know that the majority of blogs are abandoned in just a few months after their creation? This makes you wonder, why then, have they skyrocketed in popularity if most are soon forgotten about? Well, here's a surprising eye-opener: You see, the reason blogs are so powerful is that they are the ultimate tool to take advantage of search engines. They Allow You To Capture Huge Amounts Of Profitable Rankings And Attract Search Engine Spiders In Droves. This means any page linked to your blog can get into the search engines in as little as hours, usually in less than mere days - not the usual weeks or months it takes with new websites. And, as you may be aware, getting your pages into the search engines as quickly as possible is key to making your web sites profitable (as they can't make you money when they don't get any traffic). In other words... Blogs Are A "Must Have" Tool For Your Marketing Arsenal To Promote Each Of Your Projects. By using blogs for all of your promotions, then you're going to get hundreds, even thousands of search engine visitors who turn into loyal readers (and customers). All because you now have more top rankings throughout your market -- and all of your pages get into the search engines at lighting speed. Even the hardest to attract search engine, Google, often visits and indexes blog content in mere days. For this reason, blogs have taken off like wildfire. In practically every market, blogs are being used as a marketing tool to dominate the search rankings. So, why are so many of them abandoned soon after they're created? Well, along with the positive, there's a also a dark-side many blog owners face... How In The World Do You Find The Time To Keep Them All Updated? Writing content is hard work! First, you've got to come-up with a topic your audience wants to hear about (which often leaves you staring at your computer, wasting your time, while you wait for a good idea to hit). Then, it takes hours to create good content that your readers find

valuable. And, if you don't feel comfortable writing, then some posts might even take all day to create! This leads most to commit "blogacide" and abandon their blogs. Sure, it's easy keep them updated for the first month or two. But, then new projects come up and the excitement declines for the old. If You Have Multiple Blogs, Then Constantly Updating Them Makes You Feel Like You Never Get To See The Light Day! Instead, you have to work around the clock... missing opportunities to spend time with your families and friends... as well as, new business opportunities that have the potential of doubling your current monthly income! Your time is far too valuable to be spent working on blogs everyday. Not to mention, there are far more exciting things to spend your time on. Yet, at the same time, the benefits blogs have to offer are amazing. More top rankings, loyal readers, and getting your pages into the search engines as quickly as possible... so you can take home bucket loads of more cash from each of your current projects. So, What In The World Is A Hard Working Web Entrepreneur Supposed To Do? Well, let me introduce you to a new SEO tool called "Blogging Ninja." Blogging Ninja is a web based software script that allows you to automatically gain fresh, relevant content in your own personal blogs. It works by using the power of RSS (Really Simple Syndication) to allow you to offer your readers fresh content from blogs and news sites around the web. Best, of all, you don't have to pay a dime for this content because it is readily available for the public's taking. You Just Set It Up Once For Each Blog and "Presto"... You're Done! All of the blogs you want (in potentially thousands of markets) get fresh content as soon as it's available. You don't have to lift a finger or pay a dime. This then allows you to capture top rankings because you have keyword rich content (a key consideration search engines use in deciding which keywords your blog entries show-up for). Finally, You Have An Option To Get Your Pages Into The Search Engines With A Technique Search Engines Encourage. That's because you're now posting valuable content their searchers are going to stop to read. And when this happens... Then, you increase your sales and ad revenue because you have more readers who stick around and click on your ads. Additionally, you're delivering fresh, up-to date content. This is what search engines love to suck-up and rank high in mere hours or days. Simply put, you're growing the most valuable asset a website can have (your content) at warp-speed! Let's Take A Look At Exactly What Blogging Ninja Allows You To Do: Easily input ads into your new blogs to generate AdSense revenue, affiliate sales using banners or text ads, or promote your main product or service. New sales and ad revenue are only moments away from entering your bank account! Increase your chances of capturing top rankings for an always growing amount of blog entries to

explode targeted traffic to your website! Get your pages into the search engines fast so you can start making money from them as quickly as possible, instead of letting them waste away for months. Save your valuable time because you no longer have to manually write content to keep your blogs updated. Easily maintain potentially thousands of blogs in practically any niche without being an expert! Use other peoples expertise to profit. You don't have to know squat about a market to start a blog and take it over! Post different author names automatically so each post looks like it's being made by a different person. Make a big impression on your readers by having your blog look like you have an entire staff managing it! Avoid the time consuming task of writing content for your blogs. Now, the benefits of blogs are given to you automatically... So you can spend your time on new and exciting projects! Enjoy automatically updated content. As soon as new articles or news items from the sources you've selected are published, your blog is updated! Receive fresh, ready-to-go content for your readers to devour. By adding quality content to your Blogs, search engine traffic is going to stick around to read your content and click on your ads! Test out niches to avoid flops and find out if they're profitable. If you can't generate enough traffic or affiliate sales from a market, then you can get-out before you spend your valuable time creating a product for it! Use this content as a replacement for your normal entries when youre on vacation or have too much your plate. Now, youll never lose visitors and sales, when youre enjoying yourself or just too busy. You don't have to take the time to install Wordpress, or sign-up for other third party blog hosts... It includes its own blog. Set-up one time for each of your blogs and forget-it. Everything is taken care of for you! Gain control over your blogs' look and feel to set them apart from the rest. Change the header color, background color, site color, and the blog title to your liking. Without editing a lick of HTML code, quickly add 5 outside links to any website you want from your blogs. This insures that readers and search engines will flood-in to all of your sites! Upload keywords you want to target rankings for from your personal search tool (Such as WordTracker or Overture). This means youre going to gradually capture the top search engine terms youre after, not just leave it up to chance! Post a random number of entries for a more natural feel. You won't have the same amount of posts each day, which can make it appear like a computer is in control of your blog. Alert search engine's to suck-up your blog entries and visit website links from your blog by inputting and automatically pinging a list of ping URL's each time a post is made. Randomly organize your posts to different categories in the blog - so it mirrors actual human blogging trends. Run CRON jobs - this means your copy cuts on at pre-defined times each day. And, the

content delivery process is fully automated for each blog and you don't have to touch it again! Grow the most valuable asset a web business can have... loads of fresh relevant content! You're going to slowly amass a fortune in top rankings! Plus, so much more! Simply put, owning your copy of "Blogging Ninja" is like having your own personal editor for your blog -- who spends his or her days and nights digging-up quality content for your blog. Best of all, your editor doesn't require an hourly pay! The Difference "Blogging Ninja" Makes In Your Business Is Night and Day. On one hand, you can maintain all of your blogs manually.... where you slave away writing content for hours each week... Or, heaven forbid, not even use blogs for your projects... meaning you lose-out on loads of free search engine traffic and search engine spiders to suck-up your pages. But frankly, your time and business is worth a lot more than that. By having just 2 blogs, you're going to save countless hours a week. Time you could be spending on making new sites or taking time off to relax and be with family and friends. This is especially true if you have websites in many different markets and can't possibly stay up to date with all of the latest market information. So, If You're a Blog Owner or Have A Web Business of Any Kind, Then This Tool Is Invaluable To You. Your copy of "Blogging Ninja" is like owning a legitimate "Lazy man's shortcut" to amassing a fortune in quality content... Because along with your fresh content comes loads of free targeted traffic for any website or promotion you want...and you gain all of the search engine benefits for your sites as well. Best of all, you can get started gaining these benefits mere moments from now. So, you can finally stop neglecting profits in your market that are so easily yours! Of course, all of this sounds great. But, you may be wondering if you can afford to get your copy today. Well, here is good news. The Investment To Get Your Copy Is A Miniscule Fraction Of What You're Going To Be Soon Making! With your copy, you're going to make a new source of income through 3 ways: 1. First, you're going to generate traffic for your main product website by bringing in loyal new customers to your business from the search engines. 2. You're going to get ad revenue from either AdSense, banners, or text ads inside your blogs (extra affiliate money). 3. And, most importantly, you're going to save countless hours of time by not having to slave away writing blog content... and spend that time on what's going to bring you in more cash. Together, all three of these add up to a powerful weapon that is a vital part of running your online business. And, the investment to get your personal copy only adds up to pocket change of what it makes you... only \$97. A one-time investment you never have to repeat again... and a tiny amount when you consider all of the new search engine rankings you're going to get and the added cash flow to your

bank account. Alone, the search engine benefits from this new software are worth far more than the tiny cost of Power Blog Builder. However, we're still not done covering all you receive... You Also Get Another Very Important Addition That Pays Off Time and Time Again For Years To Come! To make sure your investment in "Blogging Ninja" is secure, you get FREE updates to all future versions. This means when new, more advanced features come-out... you get them right away. And, you also don't have to worry about losing your investment when advanced competing products come-out. Instead, you're going to get cutting-edge features without paying an extra cent...Even if the new version's price goes up for new customers, yours is given to you free of charge. Now, there is no reason to wait in getting your copy. Your investment is completely secure. Not to mention, you also get my... "You CAN'T Lose 60-Day Personal 100 Money Back Guarantee!" I am so confident your personal copy of "Blogging Ninja" is going to exceed your expectations... that you get to try it risk-free for a full 60-days! If you aren't blown away by the amount of time and effort it saves you, then we will gladly refund ALL of your investment. So, don't wait another second to start profiting from your copy... because in only hours from now search engine's can be flooding into your website to gobble-up your pages... and you'll begin to capture your first new search rankings... With this deal, you can't lose... P.S. If you're serious about building a long-term web business, then adding a copy of Blogging Ninja to your arsenal is a smart decision. It's the choice between neglecting the search engine rankings and profits you can so easily have... or potentially doubling the profits for each of your projects. P.P.S. Blogging Ninja is a powerful tool for anyone who does business online. If you're an affiliate marketer or sell in many different markets, then you can now keep up with potentially thousands of blogs!
