

Palmistry Hand Reading Analysis

[DOWNLOAD HERE](#)

Palmistry involves the art or practice of telling fortunes and interpreting character from the lines and configurations on the palm of a persons hand. This is a completely free test, and the best part lies in the fact that it can be administered within five to eight minutes. All you need to do is to compare your hand with the images displayed. It is said that the left hand is the hand we are born with and the right hand is the hand we make. So it is suggested that you analyze your Right Hand FIRST and then your Left Hand. Choose all the features that stand true for your hand, and within minutes, you can view a free personalized palm reading. Please read the license-personal-use.txt and Install-Readme.txt.
