

Criminal Justice Policy And Planning - , Philip W. Harris

[DOWNLOAD HERE](#)

Unlike other textbooks on the subject, Criminal Justice Policy and Planning presents a comprehensive and structured account of the process of administering planned change in the criminal justice system. Welsh and Harris detail a simple yet sophisticated seven-stage model, which offers students and practitioners a full account of program and policy development from beginning to end. The authors thoughtfully discuss the steps: analyzing a problem; setting goals and objectives; designing the program or policy; action planning; implementing and monitoring; evaluating outcomes; and reassessing and reviewing. Within these steps, students focus on performing essential procedures, such as conducting a systems analysis, specifying an impact model, identifying target populations, making cost projections, collecting monitoring data, and performing a meta-analysis. In reviewing these steps and procedures, students can develop a full appreciation for the challenges inherent in the process and understand the tools that they require to meet those challenges. To provide for a greater understanding of the material, the text uses a wide array of real-life case studies and examples of programs and policies. Examples include policies such as Restorative Justice, The Second Chance Act, Three Strikes Laws, and the Brady Act, and programs such as drug courts, boot camps, and halfway houses. By examining the successes and failures of these innovations, the authors demonstrate both the ability of rational planning to make successful improvements and the tendency of unplanned change to result in undesirable outcomes. The result is a powerful argument for the use of logic, deliberation and collaboration in criminal justice innovations. Chapters are enhanced with outlines, figures, tables, examples, discussion questions, and case studies. Appendix includes a seven-stage checklist for program and policy planning.
