\*\*\*\*\* Dear Future Informational Product Developer, Sales Fact: - Information products continue to rise as more and more customers continue to learn. It's obvious that more and more people are coming online to seek out information on the internet. They not only do research, but they buy the information. In fact, the Internet has change the way people find information. Just like you and I, we rely heavily on Google and other search engines to find information, find news, and more. In fact more and more television stations and newspapers are creating online versions to keep up with this demand. Problem: - The demand is huge. Due to the demand, millions of Online informational products are being created. However, tons of these products are low quality products, created without much thought. So imagine you spend a week creating a product, only to realize that people are refunding your product and leaving unhappy. You are frustrated because you don't know why this is happening. You spent time and perhaps even lots of money. You walk away angry or sad. Don't let that be you. In fact it is easy to fail in this industry if you do not know what you are doing and understand most importantly, what your customers are looking for. However, that is why we were able to get a successful product developer to show you what he is doing, to let you in on the secrets. You see, given the right product development blueprint....if you know how to create good quality products at top notch speed, then you should have no problem succeeding at this. The Solution... As I mentioned earlier briefly, creating a bad product can increase your refunds and increase your refunds. But knowing how to create the product the right way will yield the opposite in results. You will have happier customers who will want to buy from you over and over again. With our blueprint you can earn even more if you angle it correctly and create your product correctly and you'll learn more about how to do that in this video series. And remember, if

you angle it wrong, then you'll lose a ton of time and money. Introducing... Infopreneur Academy! 7 Part Video Course This step by step, 7 part video series, takes you by the hand and shows you how to create a quality informational products, the right way! There's no theory involved here like other video series. You learn directly from a successful product developer who is behind 7 figure launches that went thru a lot of costly and time consuming mistakes; so that you don't have to. Here's a list of this 7 part video series in more detail

**Video #1: Introduction to Infopreneur Academy** In this video we will discuss what you need before creating your own Informational product. Now I won't be showing you how to create all sorts of products, but instead this video series uses a specific plan that works to make your product successful. We will focus primarily on information in the form of videos and reports. This system is so easy to implement, you can create a good quality product within 5 days or less. However in order to succeed, you do need to watch the videos and complete them. Too many people fail because they either read or watch training material and don't attempt to take action. If you are ready, then read on. You'll be given a quick overview of the video series in this section, the tools you will need to get started, and how it works.

**Video #2: What Increases and Decreases Conversions** You will learn one process of thinking that will forever change the way you create quality products. This process is the difference between a successful and failing product. You will also learn what mistakes you can possibly make and avoid them. You see, if the product is created incorrectly, it can increase refunds and increase support, thereby making your customers unhappy and you as well.

**Video #3: Planning For a Good Product** After you understand the makings of a good product, it's time to plan for your own product. Where do you start? What kinds of products can you create? Should you create them in the form of a Video, Ebook, or Report? Which is better? What increases and possibly decreases the perceived value of your product? All these questions will be answered in this video.

**Video #4: Super Fast Salesletters** I know the question you have, is "Why in the world are we creating the salesletter before creating the product? Seems a bit reversed right?" Having creating over 75 products, I can tell you that creating the salesletter before you create the product, will in fact yield a better quality product. Why? This is because by creating the salesletter, you will understand your audience better, their problems, solutions, and possible loopholes you would have missed out on. In this video you will learn how to create super fast salesletters in less than 3 hours. Most salesletters can often take half a day to a day to finish, but I'll teach you my most guarded secrets to creating a quality salesletter in less than 3 hours.

**Video #5: Creating Your Product** Once you have finished the salesletter in

video 4, it's time to create your product! Where should you begin? Well there are different avenues you can take when you create your product. Developing your product is very easy once you have done the proper research and planning. In fact I spend about 80-90 doing the planning and research. When I record, edit, make the product look pretty; that takes about 10-15 of the time. So fortunately for you, you get to see why this process will enable you to create fast, yet quality products. Video #6: Create a Training Area As you will see in the process I show you, creating a training area will actually help you decrease the amount of possible refunds you receive. What about forums? I will tell you why I actually don't recommend forums, and what avenues you can take to make things better and easier for your customers. In fact I have found that forums just create unhappy customers and eventually an unhappy you. Should you create a video training center or can you just use reports and PDF files? These questions will be answered in this video. Video #7: Packaging Your Product for Release By now, you have created your product and you're ready to go! But wait, you will need to know how to package your products before you release it. This includes how to create your download page, so that your customers can get the products instantly. You will learn how I package my products and create the download page; ALL in less than 15 minutes! ----- So...with that said, grab this video series today, and learn how to create your Informational product...the right way today! P.S. Did you know that you could be creating your informational product the wrong way? Thus increasing future refunds and support issues, that both waste time and money? Join the Infopreneur Academy and learn how you can create a quality product fast, but decrease refunds and support issues at the same time. P.P.S. Learn the secrets of product development from a master product developer, who is behind 7 figure product launches. The costly mistakes he made, so you avoid them too.
