If you're looking for the chillout room, you're definitely in the wrong place! Right now we're on the mainfloor, electrifying and energising the atmosphere with one of the hardest hitting four-to-the-floor crossover sample packs on the market! Every good producer likes to find new flavours, so tonight we're inventing "Da Sound Of Bounce", a devastating combination of street-style hip-hop vibes colliding with banging electro-house tunage, guaranteeing an adrenalin feast for non-stop dancers from Miami to Berlin. This mainroom-ready collection is presented as a fully comprehensive sample pack, boasting a massive selection of sidechained and gated synth loops and patches, filtered and gritty electro basslines, pounding drum loops, perfectly prepared one-shot percussion, 50 dramatic FX samples and of course 30 full-fat vocals in the call-and-chant style. Slam these elements together to give an instant energy boost to your projects, finding your own "Sound Of Bounce" from the infinite possibilities available. Each and every file in this sample pack has been triple quality checked and clearly named by instrument, tempo and key. The loops range from 125-140bpm, with the hype level permanently set to maximum, so you can find out what it would sound like if Timbaland was locked in a studio with David Guetta. You can download this kit in all the major loop formats, just drag and drop to get your sampler bouncing from bar one. All of the available formats also include synth patches for Kontakt, EXS-24 and Halion. In addition to this the Ableton Live Pack also contains patches for Impulse and the Reason Refill also contains patches for NN-XT and ReDrum. Grab a tranced-out Tiesto eurosynth pad, a bigtime Benny Benassi bassline, lay down a perfectly compressed kick on every beat and throw a supercharged vocal on it... you'll be ready to raise the roof higher than ever before. Whatever sound you want, you need it to bounce, so quit wasting time and go straight to the source: "Da Sound of Bounce". PS: Everything you hear in the demo showcase is inside this sample pack! You can find this release in a large number of other Special Formats on our website including: Ableton Live Pack (214mb) Acid Loops (423mb) Apple Loops (423mb) FL Studio (423mb) Garageband (423mb) Reason Refill (437mb) Rex2 Loops (545mb) WAV + REX2 (968mb) and many, many more! primeloops.com
