

The Clockwork Man-the Hidden World Premium Edition - Pc Game

[DOWNLOAD HERE](#)

You can download a free demo. Two years after her courageous exploits in New Coventry, Miranda Calomy finds herself embroiled in a fresh adventure after discovering a mysterious obsidian object. A mundane day of studying at the Steamworks Academy ends up being the beginning of a quest to find a mythical place: The Hidden World. Armed with her incessant thirst for knowledge and the excessive amounts of wanderlust that run in her family, Miranda embarks on her journey but she is not alone. Doggedly chasing her every step of the way, an unknown menace will do anything in his power to discover the legend for his own benefits. Join Miranda and her robotic friend, Sprocket, in this amazing journey through a parallel Victorian universe where steam fuels technology. Use your intellect to solve unique and exciting puzzles. Interact with colorful characters to advance your quest as you search for magnificent, detailed objects in innovative horizontal/vertical scrolling and zoom-able scenes. Call on Sprocket's upgraded abilities for help and explore breathtaking, hand-painted environments so that you may discover for yourself the land of legends: the Hidden World! Publisher: GameHouse
